

Buffalo Girlchoir

Strong Voices. Strong Girls.

Fall 2021

Due to the level of interest and the growing body of evidence supporting the success of proper implementation of COVID-19 protocol, Buffalo Girlchoir will be resuming in person instruction on September 13, 2021.

Through a back to business grant funded by the Erie County IDA, Girlchoir updated the air filtration at the BGC studios. We now have a HEPA/MERV 11 filter in our furnace as well as 4 Medify MA-40 HEPA air purifying units. There are hand sanitizing stations at each entrance.

We will be requiring all singers, regardless of vaccination status, to wear a mask. Singing is still considered a high risk activity and the Delta variant is more contagious than previous iterations of covid.

Buffalo Girlchoir will also require singers to bring an entrance ticket to the studios EVERY WEEK. In addition, we ask that all families read and sign the community agreement and bring it to the first rehearsal.

Because this pandemic has had a significant financial impact for many families, tuition for Buffalo Girlchoir is now donation based. Please pay what you can and when you can but know that we want your daughter to sing with us even if you are currently unable to pay anything!
